

TRAKZ TUB SLIDERS

Trakz-AT (Attendant Tilt) and Trakz-AP
(Attendant Propel)

ACCESSIBLE BATHING MADE SIMPLE
– NO RENOVATIONS NECESSARY

RAZ TRAKZ-AT
Attendant Tilt

TRAKZ is a tub slider system that enables individuals to shower over an existing bathtub without the need for expensive bathroom renovations.

- Ideal for seniors and individuals with limited mobility.
- Promotes independence and accessibility in their own homes.
- Versatile and long-term solution for accessible bathing.
- Use the Trakz commode to reduce transfers and to allow for safe toileting and effortless integration onto the bridge for tub transfers.
- Trakz-AT uses a dual-arc tilt system, allowing for the lowest tilt effort of any chair on the market for positioning, ease of transfers and navigating over tub walls.

Bathing and Toileting Products for Life

TRAKZ-AT FEATURES

Patented Zbrilok™ Safety System – Trakz is the only tub slider system with a patented safety feature that prevents the seat and user from moving onto the bridge unless the bridge is securely latched to both the tub base and the mobility base. This patented design, available only from Raz, can prevent serious injuries.

Rotational Tilt – Dual-Arc Tilt Geometry (Trakz-AT only)

- 35-degree tilt range – for pressure redistribution, trunk positioning and raising client’s feet high enough to clear the tub wall
- Rotational tilt geometry reduces tilt effort and allows the Trakz to be mounted much closer to the rear wall
